# How to Host the Trivia Game:

**1.** Access the game via the link in the digital Screen Play kit.

**2.** Enter your show details to create your unique game:

- Click the “Movie Start Time” box and select the show date and the time you plan to start the film (not the event’s start time), then click “OK.”
- Select the time zone your showing is happening in from the “Show Time Zone” dropdown.
- Enter in your school name then select “Play Game!”

**3.** On your unique game homepage, a countdown, QR code and Game ID will appear for players to use to join the game.

- Adjust the start time by clicking the date/time box, enter your new time and hit “OK.” If the game has started, refresh the page to show the date/time box again for adjustments.
- After the start time passes, you only have five minutes to reset the time. After that, no changes can be made.
- **Important:** Keep your game homepage open or have the unique link accessible to manage start time adjustments, check the countdown, access the QR code and leaderboard, etc. If you exit and use the original link, it will start the process over and generate a new game and new QR code.

**4.** Share the QR code with the audience upon arrival or display it on a screen so they can join the game. Or have players join by visiting [swanscreenplay.com](http://swanscreenplay.com) and entering the six-digit Game ID.

- **Tip:** Make sure to print out the QR code and have it available for any students that arrive late so they can still join the fun!

**5.** Start the movie when the countdown reaches 00:00:00 to ensure the movie’s time matches up with the timestamped questions in the game.

- Ensure no previews or ads play before the movie. If they do, skip ahead of these before your showing so you can start at the beginning of the movie when the clock hits 00:00:00.
- If you’re unsure when the official start of the movie is, check out a digital version of the movie (either streaming or download). The start of these copies will be aligned with the start of the timestamps as long as there are no ads.
- **Tip:** We recommend using a digital download of the movie for synchronized timestamps and a smooth transition from the QR code to the movie.

**6.** Hosts can monitor the leaderboard on the game board or the game homepage.

- **Tip:** To keep players engaged until the end of the film, have prizes for the players with the most points.

# Trivia Game Play Instructions

1. Join the game using the QR code, or by entering the Game ID at [www.swanscreenplay.com](http://www.swanscreenplay.com).
2. Enter a nickname and click "Join Game with Nickname."
3. Read the instructions and click "Play." The game will start automatically once the countdown ends.
4. In between questions, you will see a countdown to when the next question will start.
  - Tip: Turn off auto-lock on your phone, so your screen will stay lit and you won't miss any questions! And lower your screen brightness so you don't distract from the movie.
5. You can view the leaderboard and instructions at any time using the buttons at the bottom of the page. You can also see which question you are on in the game out of the total question count.
6. Once it's time for a question, you will see a preview of it with a countdown and then you will be able to answer it. After a question's time is up, you will see the correct answer (if applicable) or audience poll results, and then the updated game leaderboard.
7. There are four types of questions in the game. How points are won and point values vary based on the type of question, as does the timing for the question.

### Multiple Choice:

- You will see multiple answer options for the question. Select which one you think is the correct answer as quickly as possible to secure the most points.
- You can change your answer after you've selected one, but it will also change your possible points.
  - You have 30 seconds to answer.

### Audience Polls:

- You will see multiple answer options, but there are no right or wrong answer—everyone gets the same points just for selecting one!
- See what the rest of the audience answered with poll results after the question!
  - You have 30 seconds to answer.

### Fill in the Blank:

- Form the correct answer using the selection of letters on the screen.
- Points are distributed for each correct letter in the correct spot. So even if you don't know, you're better off trying to answer instead of leaving it blank!
  - You have 60 seconds to answer.

### Free Answer:

- Type in your answer to the question in the box. There are no right or wrong answers—everyone gets the same points just for answering!
- You have 60 seconds to enter in your answer.

**Stick around to the very end of the movie to see your final position on the leaderboard!**
